InspireBoard™ Interactive Whiteboard

Model IB 278/289

With Inspire Board interactive whiteboard, every student can experience the benefits of hands-on, interactive learning. This easy-to-use, touch-sensitive interactive whiteboard combines quality and affordability. It enables teachers and students to interact with lesson content in a natural way using either their finger or a pen.

Multitouch Experience

Two users can simultaneously write, erase, and manipulate and move objects on the interactive whiteboard surface and no special tools are required.

Save Function

Capture your work to a screen shot that you can edit, or save your notes directly into several software applications.

Durable Surface

The InspireBoard has a hard-coated steel surface that is durable, optimized for projection, compatible with dry-erase markers and easily cleaned with whiteboard cleaner.

Learning Software Included

InspireBoard interactive whiteboards are bundled with Collaborative Learning software, which helps teachers create, deliver and manage interactive lessons using a single application.

Collaborative learning

InspireBoard provides the opportunity for students to engage directly during the lessons. Touch technology allows 'hands-on' manipulation of content, encouraging students to work collaboratively in the classroom.

Economical and Easy to Use

After extensive research on challenges faced by educational institutes in deploying ICT solution in classrooms, we decided to solve the problem by building an interactive whiteboard which is economical yet effective and very easy to use.
